LEAN CERTIFICATION

Backed By Research

LCI conducted an industry-wide research study last November which revealed that nearly 85 percent agreed or strongly agreed that certification would:

- ✓ **Support the LCI mission to change the industry**
- ✓ **Set the standards for consistent understanding of Lean Design and Construction methods and tools, and**
- ✓ **Be valuable for the industry-at-large**

”
**Having a certification from LCI
brings a strong base of support so
that team members will have a
level of respect that separates
them from others.**

“

—Henry Nutt III
Preconstruction Executive
Southland Industries

“

The team should start with the confidence level that the person has been vetted by a 3rd party organization that they do know the concepts and are able to help the team.

”

–Ken McBroom

*Director of Operational Efficiency
McCarthy Building Companies, Inc.*

Other Benefits:

- ***Owners***
- ***Certified Individuals***

Start Your Certification Journey

**Join Kristin Hill
Thursday at 11:45 for an
introductory session
about certification**
