24TH ANNUAL

Congress

First LCI Congress 1997

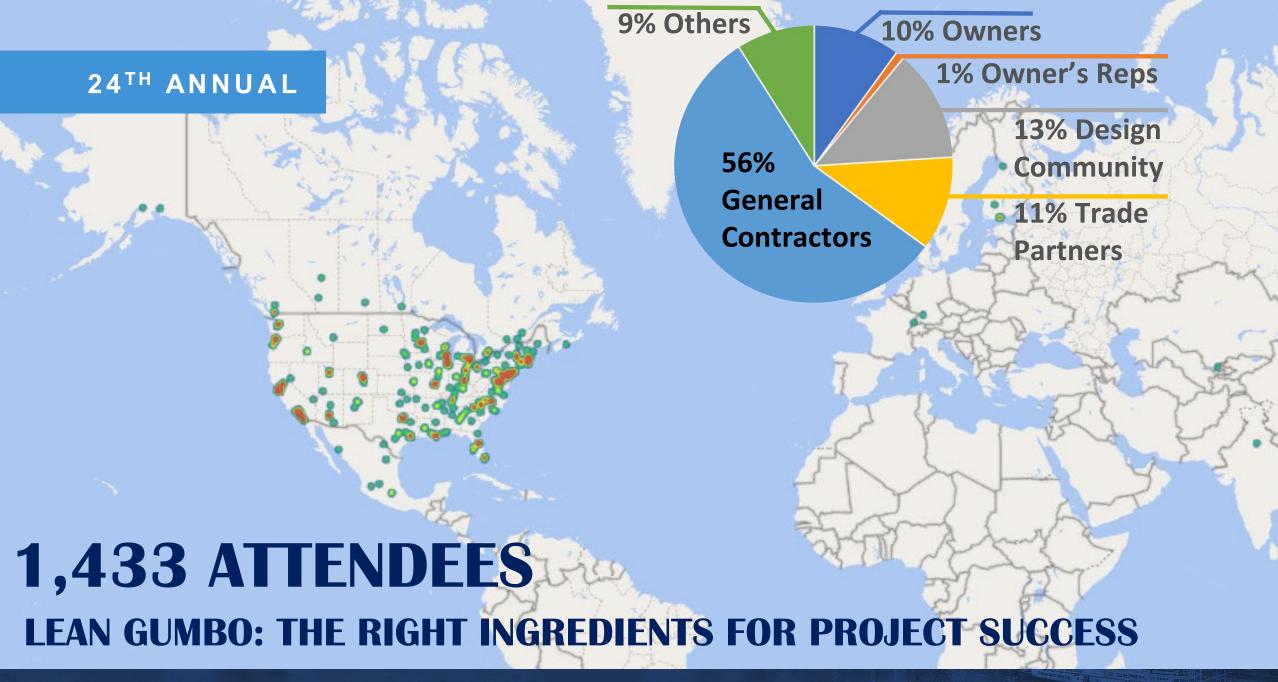

Berkley, CA
at the Marriot Hotel
"Under 20, maybe under 15.
Greg [Howell] produced it. We had a mix of industry, academic, and IGLC participants."

- Hal Macomber

Conditions of Satisfaction

First Timer

I will be satisfied after attending my first congress if:

- 1. I leave feeling inspired to try something new and achievable.
- 2. There was plenty of introductory content for me to learn what Lean is.
- 3. I leave knowing concrete steps to better put work in place (field), increase my profit margin (management), or create collaborative teams.
- 4. I have met other Lean practitioners like myself that I can remain in contact with afterwards.
- 5. I feel welcomed and comfortable speaking up and participating in all sessions.
- Gain more awareness of my impact on company culture and the success of implementing Lean (especially important for executives).
- 7. I want to come again next year.
- 8. I am hungry to find 'more of this' (Online resources, Communities of Practice, seminars/ workshops, other online communities)

Returning

As a repeat attendee I will be satisfied after this congress if:

- 1. I have a new/fresh learning experience that stretches my knowledge.
- 2. I have found a new way to think about how I work and collaborate.
- 3. I understand the value in putting energy and resources toward Lean implementation (especially important for executives).
- 4. I can communicate the value of Lean initiatives to clients.
- 5. I feel empowered to be a mentor/resource to others on their journey.
- I grew my network of Lean minded professionals and reconnected with past Lean colleagues.
- 7. I feel inspired to be a presenter at next year's congress.
- I feel inspired to bring those I work with/ collaborate with/industry partners next year.

Optimize the Whole
