Generate Value

2023 Congress Conditions of Satisfaction—First Timer

I WILL BE SATISFIED AFTER ATTENDING MY FIRST CONGRESS IF:

- ▶ I leave feeling inspired with actions to implement tomorrow recognizing that Lean is HUGE and something that isn't going away.
- ▶ I have the ability to focus on 1 to 2 tools/practices from learning day thru the core program without being overwhelmed having implementation guidance for beginners with resources to learn more.
- ▶ I have an opportunity to network/meet with seasoned Lean practitioners for future coaching and support to keep me inspired with the belief that I can change the industry in my own way.
- ▶ I am able to effectively communicate and share the value of Lean with colleagues and company leadership.
- ▶ I understand that Lean Construction is a culture and mindset that I can implement it at the job site, in the office, or at home as well as recognize what Lean Construction is and is not.
- ▶ I can easily justify to my supervisor the payback to come back next year and want to return to Congress again and encourage my colleagues to join me.
- ▶ I attend topics and presentations that are applicable to the field (trade partners).
- ▶ I want to come back to the D.

Generate Value

2023 Congress Conditions of Satisfaction- Repeat Attendee

AS A REPEAT ATTENDEES I WILL BE SATISFIED AFTER THIS CONGRESS IF:

- ▶ I have an opportunity to attend event/presentations with other seasoned practitioners in the industry to advance my learning and capabilities.
- ▶ Sessions are clearly labeled for intermediate and advanced Lean Construction implementations.
- ▶ Sessions allow time for interaction with speakers:
 - The proverbial “wall” between the speaker(s) and the audience comes down and we engage in collective dialogue that takes Lean ideas further than we have before.
- ▶ I have learned new tips, tricks and coaching practices to enhance my skill set.
- ▶ The agenda includes:
 - New topics not covered in previous Congresses.
 - Failure stories.
 - Content available to building specific Lean practices (Last Planner System®, Takt planning, Value Stream Mapping, etc).
- ▶ I make new Lean friends and continue to reconnect with other Lean kindred spirits.
- ▶ There were opportunities for me to share my own ideas/progress and give back to the community.
 - I have been able to pass on something I learned to a first timer.
- ▶ I found more sessions for advanced practitioners and was able to get more out of the Congress experience than in previous years.
- ▶ I provided feedback through the app session surveys that will help shape and improve future Congresses.

Extended Congress Planning Team – Abstract Review Team

Chair: Kevin Labrecque, Integration Point LLC

- Tariq Abdelhamid, MSU
- Matt Bleakley, Whiting-Turner
- Jeff Creighton, Barton Malow
- Julie Davis
- Chris Dierks, DPR Construction
- Emerson Dority, Gilbane
- Felipe Engineer-Manriquez, The Boldt Company.
- Jessica Kelley, Merck
